

RIDDHI TOMAR

riddhi_tomar@outlook.com | linkedin.com/in/riddhitomar | [Portfolio Link](#)

Senior Product Designer with **6+ years** of experience designing **consumer products across fintech, e-commerce**, and digital platforms. I enjoy simplifying complex problems into intuitive experiences and increasingly exploring how **AI can transform research, ideation, prototyping, and everyday product experiences**. I bring a research-led, data-informed approach with a strong focus on product craft, experimentation, and measurable impact.

WORK EXPERIENCE

Nykaa, Mumbai

Product Design, Jun 2025 – Present

- **Integrated NAP into Nykaa app** across onboarding, auto-approval, creator dashboards, and in-context link sharing, driving **2.5x faster** creator-base growth, **71% of sign-ups via the app**, and **₹32 Cr annualised revenue impact**.
- Led the design of a **0→1 brand-creator campaign platform**, enabling brands to create and manage campaigns while affiliates could discover and participate - driving **21% growth** in affiliate participation, **45% growth** in brand participation, and **₹30L increase** in average monthly brand investment.
- **Identified the need** and created an always-on **creator feedback** experience for NAP, turning research insights into a lightweight in-app feedback channel; generated **2,000+ organic entries** since launch in April to surface user pain points, bugs, and opportunities for product improvements.
- **Led creator research for NAP** to understand evolving needs, behaviours, and adoption barriers, translating insights into **features, opportunity areas and feature recommendations** for the product roadmap.

Jupiter Money, Bengaluru

Product Design, Feb 2024 – Jun 2025

- **Led the credit card design vertical**, driving the design process from research and ideation through prototyping, QA, and tech handoff while establishing more consistent design practices across the team.
- **Redesigned Jupiter’s credit card onboarding journey**, using research insights to simplify the experience and increase conversion from **2.5% to 6%**, significantly outperforming the **industry average of 3.5–4%**.

Jar App, Bengaluru

Product Design, May 2022 – Aug 2023

- Led the end-to-end design of a feature aimed at **increasing manual saving transactions**, from opportunity exploration and storyboarding to prototyping; the feature now **engages 1L+ users weekly**.
- Partnered with PMs, business stakeholders, and engineers to develop an alternative approach to a core revenue feature, **driving a 4% increase in CTR and 8% reduction in cancellations**.

Tata Elxsi, Bengaluru

UX Design, Aug 2019 – Apr 2022

- Designed data-rich digital experiences and dashboards for **ABB, Schaeffler, and Tata Electronics**, translating complex information and real-time data into intuitive interfaces.
- Redesigned ABB’s social web portal across **desktop, tablet, and mobile**, improving accessibility and user engagement.

AI IN MY DESIGN PRACTICE

Use AI across research synthesis, ideation, competitive exploration, rapid prototyping, copy exploration, and design iteration—using tools such as ChatGPT, Gemini, and Figma Make to accelerate exploration while maintaining human-led product judgment.

SKILLS

Product Strategy · Product Discovery · End-to-End Product Design · User Research · Interaction Design · Information Architecture · Prototyping · Rapid Prototyping · Experimentation · Growth & Conversion · Engagement & Retention · Data-Informed Design · Design Systems · Usability Testing · AI-assisted Design · Cross-functional Collaboration

AREAS

Consumer Products · Fintech · E-commerce · AI-powered Experiences · Growth & Conversion · Engagement & Retention · Product Strategy · User Research

SOFTWARE

Figma · FigJam · Jira · Notion · Figma Make · ChatGPT · Codex · Gemini · Amplitude

EDUCATION

Bachelor of Design, IIT Bombay, Mumbai - July 2015 to April 2019
